Model 7105A Accelerometer

IEPE Accelerometer Wide Bandwidth to >10kHz 10-32 Top Connector Stud Mount, Hermetic

The Model 7105A is a high performance IEPE accelerometer available in ±50g to ±1000g dynamic ranges. The stud

mounted accelerometer features a welded hermetic construction with a top mount connector. The model 7105A incorporates stable piezo-ceramic crystals in annular shear mode which provide a flat frequency response up to >10kHz. The standard operating temperature range extends from -55°C to +125°C.
